

Spring 2012 Math 173.03 Calculus 2
10:00 - 10:50 M-F, Shaw-Smyser 111

Instructor: Dr. Jim Bisgard

Phone: 963-2823

Webpage: <http://www.cwu.edu/~bisgardj>

Office: Bouillon 118

E-mail: bisgardj@cwu.edu

Office Hours: M-F 11:00 - 12:00
and by appointment.

Course Goals: Math 173 is a second course in calculus, and the main topic is integration. You will learn the definition of the definite integral, and how integration and differentiation are related through The Fundamental Theorem of Calculus. We will several methods of integration, including substitution and integration by parts. Finally, we will learn about applications of integration to determining area, mass, volume, force and pressure.

Required Text: Hughes-Hallet's Calculus 5th ed.; CWU custom (Wiley)

1 Grades/Exams/Homework

Grades

Grades will be calculated using the following weighting system: Quizzes: 40%; Homework: 5%; Exams: 55% total, broken up as follows: 15% for each mid-term and 25% for the final and the following scale:

	87 – 89.9 : B+	77 – 79.9 : C+	67 – 69.9 : D+	below 60 : F
93 – 100 : A	83 – 86.9 : B	73 – 76.9 : C	63 – 66.9 : D	
90 – 92.9 : A–	80 – 82.9 : B–	70 – 72.9 : C–	60 – 62.9 : D–	

Quizzes

We will have a take-home quiz every week, except for those weeks when we have an exam.

Each quiz will be due at noon two days after being handed out. (So, a quiz you get on Tuesday will be due at noon on Thursday, while a quiz handed out on Wednesday would be due on Friday.) I encourage you to work with other students, but you should write up your solutions in your own words.

Homework

Almost every day in class, you will receive a few homework problems. Problems assigned on a Wednesday or later will be due on the Friday of the following week **at noon**. (For example, the problems assigned March 28, 29, 30, April 2 and 3 will all be due on Friday, April 6.) I will be assigning odd problems from the book and will grade on completion only. This means I'll be most interested in the work you've done - if you just write down an answer, you won't receive any points. It is a good idea to work with other students from class. We won't have time to do every homework problem in class, so please feel free to ask during office hours. However, don't put off asking about homework until the day before it's due!

Late and Make-up Policy for Homework and Quizzes

I will accept **TWO** assignments (quiz or homework) for full credit. However, this assignment must be turned in by noon within two days of instruction of the due date. (Note that each day of finals counts as a day of instruction!) After that, I will not accept any late work for credit.

Exams

There will be three exams: two mid-terms and a final. The first mid-term will be on Wednesday, April 18, the second mid-term will be Wednesday, May 9 and the Final Exam will be on Wednesday, June 6. The Final Exam will be cumulative, and **CANNOT BE TAKEN EARLY! DO NOT PLAN ON TAKING YOUR FINAL EARLY!** If you miss an exam, you can take a make-up, but only if you have proof of a compelling reason for having missed the exam and notify me before (if possible) or within 24 hours after an exam to get a make-up. I will not give make-ups for circumstances you know about ahead of time! When a make-up exam cannot be taken before I return the corrected exam, I reserve the right to instead replace that portion of your course grade with your final exam grade.

Expectation for Class, Quizzes and Exams

Your quizzes and exams should be written up neatly and legibly, using correct notation. In addition, you should always try and describe what you are doing. For example, if you are trying to calculate $\int xe^{x^2} dx$, you should write “We use u -substitution, with $u = x^2$. Then $du = 2x dx$, and so $\frac{1}{2} du = x dx$. With this substitution, $\int xe^{x^2} dx = \int \frac{1}{2}e^u du = \frac{1}{2}e^u + C = \frac{1}{2}e^{x^2} + C$.”

We have a great deal of material to cover in a quarter. As a result, the pace of the class will be very fast, and it may not always be possible to answer every question in class. If you have a question that we weren't able to get to in class, please come by office hours or email me to set up an appointment if you can't make office hours. Please remember: when you come to office hours, **you must bring your notes**. In addition, you are responsible for material discussed in class, even for days you miss.

2 Important Dates

April 2 - Last Day for Add/Drop
April 18 - first mid-term exam
May 9 - second mid-term exam
May 11 - uncontested withdrawal deadline
Wednesday, June 6 - final exam (8:00 - 10:00 a.m.)

3 Legalese/Fine Print

Students with disabilities who wish to set up academic adjustments in this class should give me a copy of their “Confirmation of Eligibility for Academic Adjustments” from the Disability Support Services Office as soon as possible so we can discuss how the approved adjustments will be implemented in this class. Students without this form should contact the Disability Support Services Office, Bouillon 205 or dssreceipt@cwu.edu or 963-2171.
