<div align="center">

**Math 407 Fall 2013**
**Mathematics Honors Seminar (Upper Division)**
**Meeting times:** Thursday, 11:00-9:50 in Boullion 102

</div>

**Instructor:** Dr. Dominic Klyve
**Office:** Bouillon 123
**Phone:** 963-2545
**E-mail:** klyved@cwu.edu
**Webpage:** `https://sites.google.com/site/profklyve/`
**Office Hours:** Monday, Wednesday, Friday 9:00-10:00; Tuesday 11:00–12:00; Thursday 12:00-1:00. I'm also around other times quite a bit, so stop by! If you'd like, you can also make an appointment, and we'll find a time that works for both of us.

The Mathematics Honors Seminars at Central Washington University give students a chance to learn and apply mathematics beyond what is taught in most courses. We will learn new fields, study their history, and learn to access modern research in mathematics. We will also practice our skills in speaking about and writing about mathematics.

The Upper Division seminar will also support students working on their honors theses in mathematics.

**Required Text:**
None.

**What will happen in the course:** For the most part, classes will combine a little bit of lecture with a lot of discussion of the material in the readings. Much of the class will involve you sharing with your classmates and your instructor what you've been working on or thinking about during the week.

**Evaluation and Grading:**
Evaluation will be done primary on your effort in this class. Attend regularly and work hard – you'll become a better mathematician, and you'll earn a good grade!

**Students with disabilities** who wish to set up academic adjustments in this class should confirm with me that I have received a copy of their "Confirmation of Eligibility for Academic Adjustments" from the Center for Disability Services as soon as possible so we can discuss how the approved adjustments will be implemented in class. Students without this form should contact the Center for Disability Services, Bouillon 205 or dssrecept@cwu.edu or 963-2171.

I reserve the right to change the policies contained in this syllabus as dictated by developments during the quarter.
